## Featured Retail Items for April: Reflective Safety Products

With the weather turning nice, you may be out walking with your dog a little more. Be sure to use reflective items when walking in the early morning or evening. Help others notice you and your dog and be safe.

### Pretty Paws Care Tip:

Puppies should be introduced to a professional groomer when they are about twelve weeks old.

Help your puppy enjoy his grooming appointment by being very happy and excited as you drive to the appointment. If you are nervous or stressed your puppy will pick up on those feelings and he may become fearful and apprehensive.

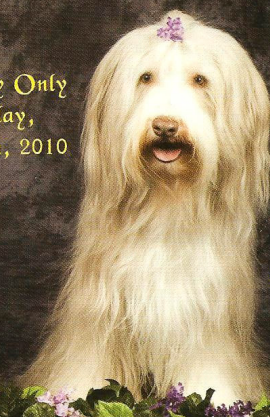

The most important accomplishment of your puppy's first groom is...that he likes it! His first experience – positive or negative – will remain with him forever.

Choose your professional groomer based on training, experience, and references vs. price alone.
