Pretty Paws care tip:

We are in the middle of our Wisconsin Winter!

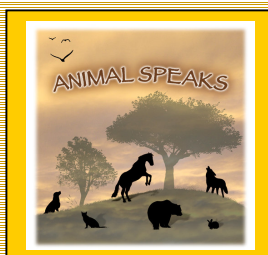

With our Wisconsin Winter brings snow and cold! Brrrr!

Please keep in mind that our housedogs need to have limited time out in the elements.

Short periods outside especially when the temperature is just about or below zero.

There are some exceptions to the rule as far as breeds go. Some of the long hair larger breeds actually enjoy the cold weather and snow. The small, short hair breeds need to be more protected.

Paw rub is a product that can actually help protect the paws of the dogs. Booties are another option to protect their feet from the cold and ice.

Stacy Krafczyk
